PROJECTS

Mr. J's Bagels and Deli Website Design

- Designed and prototyped a low to high-fidelity concept in Figma for an online ordering process at Mr. J's.
- Applied HTML and CSS, using Visual Studio Code, to code a responsive version of the iterated homepage's layout.

Little Wanderers NYC Responsive Web Design

- Collaborated with a team of UX researchers to understand the users' goals when supporting an animal welfare non-profit and existing usability pain points in the Little Wanderers website.
- Designed, prototyped, and iterated low, mid, and hi-fi products (desktop and mobile) in Figma.
- Facilitated usability and A/B tests to define the prototype's successes and pain points.

WORK EXPERIENCE

Business Analyst

BIGBEAR.AI, MCLEAN, VIRGINIA

June 2020 - Present

- Designing and presenting mockups to support potential solutions for client requirements.
- Facilitating requirement discussions to better understand client wants and needs.
- Coordinating with a team of developers and testers to troubleshoot and implement new and updated product enhancements.
- Composing training material and leading demonstrations to help users better understand upcoming product updates.
- Troubleshooting technical issues and addressing client feedback/concerns.

Community Liaison Office Summer Hire

U.S. EMBASSY IN BELGIUM, BRUSSELS, BELGIUM

Summer 2019
